**Subject:** FW: Adit Sample Results Messaging

FYI – Follow up request for adit samples. Laura and I talked about this, and our preference would be to release the results to the county and let them share with others, such as their contractors. Perhaps this is a question for the GKM LT.

**Subject:** RE: Adit Sample Results Messaging

Just checking in on EPA's sample results from the Gold King Mine Adit. Can you provide the results you have received to date.

Thank you.

Pete

Hi Laura. I only got to your message now. If we want the results to coincide, I'll need to get more information on our side as to when our results will be complete. We do not object to EPA releasing their data now since we have been very anxious to receive the results on these constituents for some time. I would like the results to be provided to Pete Foster, our consultant.

Sheryl

Sheryl and Tom:

Mike Barry, Incident Commander at the ICP in Durango, and I are working on messaging for the adit sampling results. We'd like the public release of our results to coincide with the release of your sampling results. We'd also like to explain any differences in results between EPA and La Plata County's samples, as different labs are processing the samples and different methods may have been used.

Would you be available this afternoon to discuss a roll-out strategy and possible timing? We've already got some results back and are leaning towards releasing what we've got, as opposed to waiting until we have the full suite of results from 9/21 and 9/29, but only want to roll it out this way if you're in agreement.

If you're available, just let us know what time and we can set-up a telecom or call you at a number of your choosing.

Thanks,

Laura Jenkins
